## Final Report

### 1. Implementing Partner Information

<b>Name and Acronym</b>	Emaar Association for Development & Rehabilitation (Emaar)
<b>project focal point</b>	Mohammed Hammad
<b>Email</b>	<a href="mailto:mshhammad@gmail.com">mshhammad@gmail.com</a>
<b>Phone No.</b>	+972567033333
<b>About Emaar</b>	<p>Emaar Association for Development and Rehabilitation is a non-governmental organization established in 2006 and registered at the Ministry of interior according to abiding law for civil associations under No. (7735), and Ministry of Social Affairs under No. (9001). Emaar is diverse in its humanitarian programs and services, including people with disabilities (PWDs), educational, health, and childhood programs. It has a good experience in providing educational and rehabilitation services for people with disabilities, gained through Basma Center for audiology and speech therapy and Basma School for disabled children.</p> <p>These centers are registered in the Ministry of health with No. 5/2012 and the Ministry of Education with No. 32341705. Basma Center and Basma School are considered the first educational rehabilitation institutions that serve children with cochlear implants, hearing impairment, minor mental disabilities, and development disorders in the southern Gaza Strip. By the way, Basma means Smile in Arabic, and this campaign aims to draw a smile on the children's faces, mainly CWD.</p> <p>Among the most prominent programs of Emaar Association is the health and community rehabilitation programs, through Al-Amal Center for Psychological Care and Consultation. This center was established in 2009 as a societal need for citizens in the Gaza Strip, especially in the southern and central governorates after noticing the behavioral and psychological problems for hundreds of citizens after Israeli aggression in 2008-2009. The center provides counseling and psychological services to citizens through many programs, most notably:</p> <ul style="list-style-type: none"> <li>• Your Psychological Counselor Program</li> <li>• Family Support Program</li> <li>• Clinical treatment program inside the center</li> </ul>

## 5. challenges

- The number of children with disabilities is high in the southern governorates and the project activities cannot cover all of them.
- There were some rainy days that postponed some of the activities.
- In the Holy month of Ramadan, people are busy with their worshipping activities and sometimes they were tired to come and receive their services.
